

The Peak Performance Solutions, CJIS Audit application is the first solution to help CJIS auditors perform their duties electronically. CJIS Audit can reduce the demands on time and allow for paperless audits.

## CJIS AUDIT KEY FEATURES:

### \*Build & Perform Multiple Audits

- CJIS triennial audits.
- Non-criminal justice agencies
- Technical security audits.
- Any audit you can think of.

### \*Supports Multiple Question Types

- Multiple choice.
- True/False
- Yes/No
- Informational, fill in the blank.

### \*Supports Relational Sub-questions

- Example: Do you have mobile data terminals?
  - *Answer Yes*, and the software will route you to questions related to mobiles.
  - *Answer No*, the software will move on to the next question.

### \*Automatically Build Out Of Compliance Report

- CSA can indicate out of compliance answers and policy responses. The software will identify these answers and insert the policy responses into the report.

### \*Track and Manage Audits

- Email agencies to prompt them to log in to perform audits.
- Track timeframes for each audit type.
- Stores audit electronically for permanent records.

### \*Manage Multiple Audits\*

### \*CJIS, Non-Criminal Justice And Even Technical Audits\*
