

Peak Performance Solutions has designed the first browser based NCIC validations system. The system is designed to streamline your validation process. Simply retrieve the NCIC validations file from the FBI server using the FTP connection. Our system will parse the file and separate it by agency ORI and file type. Local agencies can then access, view or print the records, and perform the validations on-line.

KEY BENEFITS:

- Eliminate mailing expenses.
- Eliminate printing expenses.
- Comply with online validations policy.
- Instantly deliver the records to the local agencies on your Intranet.
- Immediate, browser access for local agencies.
- Allow local agencies to perform validations online through the browser.
- Automatically notify agencies of new validations using e-mail and AM's.
- Automatically remind agencies of pending validations using e-mail and AM's.
- Provides the State with progress reports broken down by each agency or state-wide.
- View a summary of each record or complete details.
- The system formats all records into the PDF format for consistent printing and easy e-mailing and faxing.
- Multiple levels of access - State, TAC, User Full and User View Only.
- Includes a NIC and OCA export feature to assist agencies in locating their case records.
- Includes an XML data export feature.
- Automatically e-mail non-terminal agencies their records for validations.

Improve Record Quality

Reduce Costs

Streamline the Process
